Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. This action is responsive to the amendment filed 12/19/2008. Claims 49-53 and 55-65 are pending. Claims 1-48 are cancelled.

Specification

2. The amendment filed 12/19/2008 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the amendments to the Specification on page 2 of the remarks and Figures 4 and 5.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 49-53 and 55-65 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In Claim 49-53 and 55-65, at least the length, uniform width, thickness, uniform profile, and line tangent of the wire and descriptions of the length, uniform width, thickness, uniform profile, and line tangent of the wire cannot be found in the original specification and are considered as new matter.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 49-53 and 55-65 are rejected under 35 U.S.C. 102(b) as being anticipated by Dubrul et al (US Pub. No.: 2002/0019597).

In regard to Claims 49-53 and 55-65, Dubrul et al discloses an embolectomy device, comprising: a catheter (**120**), a vacuum source fluidly connected to the distal end of the first shaft and second shaft (there must be a vacuum source located outside the tissue and fluidly connected to the distal end of the first shaft and second shaft since fluid is withdrawn through suction inlets **122**, Fig 11A); and a wire (the wire of the mesh cutter **138**, Fig. 11D).

Response to Arguments

7. In response to the arguments on amendments to the specification and drawing, the newly submitted amendment to the specification and Figures 4 and 5 filed on 12/19/2008 does not have sufficient support in the original disclosure and are considered as new matter. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. Applicant is required to cancel the new matter in the reply to this Office Action.

As noted above, all of the claimed structure is found in the reference and the examiner contends that the prior art is capable of performing the claimed functions.

Applicant should be noted that at least the length, uniform width, thickness, uniform profile, and line tangent of the wire and descriptions of the length, uniform width, thickness, uniform profile, and line tangent of the wire stated in Claim 49-53 and 55-65 cannot be found in the original specification and are considered as new matter.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
